WHY WE LOVE WORKING WITH SCHILLING CIDER

Schilling is home-grown, and since day one, sustainability has been central to the brand's ethos—from using the lightest and most recyclable packaging available to utilizing culls (imperfect apples) and rolling out a new EV fleet for their sales team. As a group of passionate outdoor enthusiasts Schilling Cider has supported Washington Wild's work in a variety of ways, including donating \$10,000 in proceeds from last year's inaugural *Keep It Wild* campaign (hand-delivered by none other than the PNW legend themselves, Sasquatch!)

For comments, questions, and concerns, or to request accommodations not listed, please email our Communications and Engagement Manager: kaeli@wawild.org
